

FORUM RETREATS

Forum Health Retreat

Retreat Description

The Forum Health Retreat is a revitalizing opportunity for your Forum to review the basics, raise value and work on issues and relationships within your Forum. The program begins with a comprehensive Forum Health Survey that measures 87 data points of Forum Health. The retreat agenda, pre-work and on-site exercises are customized and based on the results of the survey.

Objectives / Outcomes

The Forum Health retreat helps Forums achieve alignment and balance. By the end of the retreat, your Forum will have a working plan to refresh and strengthen the Forum over the coming year. Forums report a substantial increase in member commitment and take-away value after completing the Forum Health Retreat.

First Forum Retreat Highlights

- Review basic Forum protocol, processes and structure.
- Assess your Forum health with the comprehensive, online Forum Health Survey.
- Compare your Forum health to a database of more than 400 Forums globally.
- Identify your Forum's strengths, opportunities, challenges and roadblocks.
- Practice a variety of skills to improve presentations—coaching, parking lot and presentation formats.
- Develop a customized action plan to maximize the Forum Experience in the coming year.

Details
