

FORUM RETREATS

Forum 2.0[®] Retreat

Are You Ready to Take Your Forum to the Next Level?

Forum 2.0[®] is the next stage of a high-value Forum experience, ideal for mature, healthy Forums. Learn a suite of new tools, processes and value boosters from around the globe, presented in a highly interactive format. It's powerful, high-energy, fun and informative. Many of the tools and processes can be applied to your corporate management team too!

Sixteen-year Forum veteran, Ellie Byrd, has travelled the world and worked with hundreds of Forums—young and old, large and small, structured and free-form. She has gathered best practices and creative practices from Forums in 34 countries on 5 continents. Forum 2.0[®] is the culmination of her extensive research and experience, and the collective knowledge of numerous other team experts. Learn tools and techniques like Brainstorming, Topical Discussions, Debates, Lightning Rounds, Six Thinking Hats, Goal Achievement Plans, Accountability Teams, Lateral Thinking, Walk in My Shoes, Storyboards, Root-Cause Analysis, Decision Trees, Knowledge Nuggets and more.
