Online Forum Training & Orientation

Small groups outside the EO/YPO network occasionally need training for new members. Because they are not part of a larger organization, they may not have access to training for new members. We've created a two-hour virtual Forum Training & Orientation program provided online by a ForumSherpa Certified Facilitator to get your new member up-to-speed for their First Forum Meeting!

- Online Forum Training is a condensed format, covered in two hours.
- Training may be presented to one or two members at a time.
- Content covers basic Forum guidelines, processes and protocol.
- Training occurs online via Zoom.

Cost: $950
