The Effie Experience

What Forums Are Saying About Effie

I felt a connection with Effie from the moment she walked in. She connected with each of us. I have not connected like that with a facilitator!

Effie was the best facilitator we have ever worked with. She was professional, open, warm, and did exactly what we needed. Cannot wait to work with her again!

Effie was awesome! She gave great exercises that met all of our goals for our retreat. She led us efficiently and effectively through everything and left us wanting more!
